

## Consolidate Meeting Spending with the Diners Club® Group Event System

Manage all your event and conference expenses with one payment solution. The Diners Club Group Event System gives meeting and event planners an effective tool for managing vendors and costs while giving your organization greater insight into spending.

The Diners Club Group Event System is a centrally billed payment program that helps you gain tighter control over all the costs associated with group events, including air travel, car rental, lodging, meals, catering, banquet hall use, speakers, entertainment, and more.

### **Simplified Expense Management**

Meeting expenses once paid through multiple direct invoices from multiple vendors are now paid through a single statement from Diners Club. With consolidated spending data, you have the flexibility to analyze event and meeting expenses both independent of traditional travel and entertainment expenses and pooled together for easy analysis.

### **A Valuable Tool for Planners**

With the Diners Club Group Event System, event and meeting planners have an efficient way to guarantee reservations, make deposits and pay for expenses, saving the time it takes to process multiple purchase orders and payments. The Diners Club statement can be viewed and paid online for even more efficiency.

Prompt payment to vendors by Diners Club strengthens the planner's relationships with vendors — and with the reliable, consolidated spending information at the planner's fingertips, strengthens negotiations with vendors, too.

### **A More Satisfying Travel Experience**

Diners Club issues your event planners a card with many of the same services that Diners Club offers to its corporate card members, including continuous charge privileges, no preset spending limit, 24-hour emergency card replacement and customer service, emergency medical services, access to more than 80 airport lounges worldwide, and global acceptance in more than 200 countries and more than 13 million merchants. For the meeting and event planner with timetables and attendees to worry about, the Diners Club Group Event System provides the support for the show to go on anywhere and under just about any circumstance.

**Consolidate  
meeting and  
event spending,  
and account  
for every expense**
